# Barudan Embroidery Machines

The Embroidery Machine with the Built in Service Team™ 800.627.4776

## Standard Barudan Machines

These are the most popular Barudan machines in the North American market. All feature the new "V" series Automats, with color screen and 10,000,000 stitch memory.

Barudan also offers a wide assortment of machines for high production or special applications- see Specialty Machines...

### V Series Elite XL

Made for commercial embroiderers with limited space, and for the crafter, quilter or hobbyist that is ready to move up.

- 9 Needles
- 250x400mm sewing field
- 1200 stitches per minute

### V Series Elite Pro

Professional class embroidery for both business and home-user, the Elite Pro offers the features of our larger machines at an affordable price.

- 15 Needles
- 330x500mm sewing field
- 1200 stitches per minute

### V Series C01

The most powerful single head embroidery machine ever built. This bridge type machine has a plenty of room for loading and unloading large hard-to-handle materials such as a heavy jacket, bag, blankets and etc.

- 15 Needles
- 450x520mm sewing field
- 1000 stitches per minute

### V Series C02, C04 & C06

Compact Bridge Machines with removable table tops- full size production capability in a machine that can fit thru most standard doors!

- 15 Needles
- Enormous 450x520mm sewing field
- 1000 stitches per minute

### V Series C08

Eight Hi Speed Barudan sewing heads in the same size machine as our 6 head- for the ultimate in productivity!

- 15 Needles
- 450x380mm sewing field
- 1000 stitches per minute

### V Series 12 Head

- 15 Needles
- Enormous 450x450mm sewing field
- 1000 stitches per minute

### V Series 15 Head

- 15 Needles
- 450x380mm sewing field
- 1000 stitches per minute
