[matex@mantraonline.com](mailto:matex@mantraonline.com)

### **Products**

- Innodye 200, 400, 600, 800, 1200 kgs Rope Dyeing Machine for natural, artificial and synthetic fibre fabrics
- Innovat Rope Dyeing Machine for Vat Dyes
- Sirio HT Rope Dyeing Machine for woven & knitted, Polyester/Polyamide fabrics with a capacity of 200 kgs of each tube (can also be used for weight reduction)

### **FONG'S NATIONAL ENGINEERING CO. LTD.**

8/F, 22-28 Cheung Tat Road,

Tsing Yi Island, N. T. Hong Kong

Tel : (852)2497 3300

Fax : (852)2432 2552

Website : [www.fongs.com](http://www.fongs.com)

## Products

- Eco-6 - Tubular / Open width, woven / knitted, cotton, cotton / man-made rope HT dyeing machine – 80 kg – 250 kgs per tube, 3000 kgs per batch
- Eco-8 – Tubular, single jersey, double mix, fleece knitted, body size material dyeing machines of 200 – 320 kg per tube and 200 – 550 kg per tube for 100 – 350 GSM and 200 – 700 GSM fabrics respectively
- ALLFIT Medium batch dyeing machines from 5 kgs – 120 kgs capacity for woven / knitted, cotton, cotton/man-made fabrics
- CBS HT Fabric beam dyeing machine for woven / knitted, cotton, cotton/man-made fabrics in the capacity of 150 – 700 kgs per beam
- Eco-88 – High speed dyeing machine for polyester, micro fibres, polyamide, light weight woven, warp knitted, taffeta fabric of weight less than 120 GSM, rope length 1200 metres, capacity – 165 kgs per tube, 220 kgs per tube
- Towel 8, HT Towel dyeing machine for woven, knitted, medium to very heavy weight cotton, cotton / man-made fabrics, capacity – 350 kgs per tube – 450 kgs per tube, 1800 kgs per batch.
- Eco-38, Atmospheric dyeing machine for cotton, cotton / man-made, woven / knitted, medium light to medium heavy weight fabric for varying capacities of 120 – 150, 160 – 200, 200 – 250 kgs per tube, upto 3000 kgs per batch.
- GV-8, Classic atmospheric dyeing machine for cotton, cotton / man-made, woven / knitted, medium light to medium heavy weight fabric, 30 – 500 kgs per batch
- Towel-38, Atmospheric towel dyeing machine, 200 – 250 kgs per tube, upto 1000 kgs per batch.
- SCN-24, Open width compacting machine for shrinkage and dimensional stability of cotton knitted fabrics - working width 2400 – 2800, working speed – 4 – 45 mtrs per min.
- BSD - Best shrinkage dryer for tension free relax drying of tubular knitted fabric of capacity 190 – 1300 kgs per hour

## FERRARO

Machines and plants for the finishing of fabrics  
Automatic packaging machines

Via Busto Arsizio, 120  
21015 Lonate Pozzolo (VA) – Italy

### Products

- Atmospheric hank dyeing machines 1 kgs – 2500 kgs  
(Also suitable for dyeing of socks, panty hose, narrow width fabrics of polyester, cotton, nylon etc)
- Rotating arm type spray dyeing machine for hank yarn from single arm to 32 arms
- Air pad and fully flooded vertical kier type hank dyeing machine  
(Also suitable for dyeing of yarn packages, tops, loose fibres, tows)
- Packaged yarn dyeing machine – Vertical Kier type  
(Also suitable for hanks, beams, loose fibres, tows, tops)
- Horizontal multi tube yarn dyeing machine for all type of yarns

- Vertical Kier type loose fibre dyeing machine, 100, 200, 500 kgs capacity for 100% wool, silk, cashmere (HT version suitable for Poly / Wool, Poly / Cotton, Poly / Viscose (Also suitable for packages, hanks, beams, tows, tops)
- Knitted piece (T-shirts etc) atmospheric dyeing machine of 5 kgs – 150 kgs capacity

### **STORK**

**(A Multi national Company having base in Netherlands, U.S.A, France, Spain, Pakistan, Japan & India)**

#### **Indian Contact**

#### **Products**

- Rotary Screen Printing Machines & Systems
- Digital Inkjet Printing Machines, inks and systems
- Paste & Ink dispensing systems
- Foam processing
- Hot melt laminating
- Coating & Finishing
- Double sided coating

### **SANTEX LTD (SUPPLIERS OF KNIT PROCESSING MACHINES)**

Textile Machine Works  
 Fliegeneggstrasse 9  
 9555 Tobel, Switzerland

Phone : ++41-71-918 66 66  
 Telefax : ++41-71-918 66 00  
 E-mail : [santex@santex.ch](mailto:santex@santex.ch)  
 Website : [www.santex-group.com](http://www.santex-group.com)

#### **Products**

- Santaframe – heat setting
- Acti-Tubowash - washing
- Santastretch – Dewatering and overstretching
- Santacompact – Open width levelling, steaming and compacting
- Santabrush – Brushing for surface finishing
- Santashrink – relaxation shrinkage by tensionless drying
- Santaset – Tubular thermosetting

- Santaspread – Steaming and compacting
- Suvac – Circular vacuum dewatering, over stretching and shrinking of circular knitted fabric

**THEN Maschinen GmbH**

P.O. Box 40 01 71  
74510 Schwäbisch Hall  
Milchgrundstrasse 32  
74523 Schwäbisch Hall-Hessental  
Germany
